It makes coffee exactly the way you want it. Without any annoying small talk.

**Patented flavorSwirl™ Brewing System**

Beans are ground to the perfect consistency with the powerful burr grinder. The grounds and filtered water are then swirled in a patented, pressurized chamber, to extract the maximum amount of richness and subtlety out of every coffee ground.

**Complete Versatility**

Use either ground coffee or beans. Brew one of 12 sizes, from an espresso to two extra-large coffees. Brew it to one of six different coffee strengths. And steam and froth milk like a professional barista.

**Automatic Ease**

Grind, brew, dispense and clean residual water from the pipes for perfect taste each time, all with the push of a single button. The Siemens coffee system is also fully programmable, so coffee is always ready at the precise time desired, whether that's before breakfast or after dinner.

**Self-Plumbed**

Even though it's built in, the Siemens coffee system doesn't require a plumber to install. It's a single, self-contained, intelligent unit.

**German Engineering**

No detail is overlooked in the construction of a Siemens appliance. The innovation and quality are always impeccable throughout.
